TIMES ARE GETTING BETTER.

After a Long Slumber Prosperity Has Commenced to Rise=-Reports from Everywhere Show Improved Conditions.

The mercantile reports of Dun's and Bradstreet's agencies are busy just now chronicling widespread improvement in the conditions of business throughout the Whether business has gotten tired of waiting upon Congress for that tarifi bill, or whether it has simply gotten tired of its own sloth and is coming to the surface after having touched bottom; whether either of these hypotheses is the case is a matter for conjecture, but certain it is that "things are picking up." In Los Angeles there has hardly been a time when there has been more building than at present, and this activity reflecting, as it always does, upon the values of real estate, has sent those community-made values away up to boom figures. Reports from other parts of the East show that our returning prosperity is not a local thing but is prevalent all over the country. If you wish to see an instance of present prosperity in Los Angeles, call at M. German's jewelry store at 320 South Spring street, and watch the rapidity at which jewelry is sold there, and note also the trifles for which they are bought. These sales have been in progress now for upwards of three months and the great stock is nearly gone, what there is left is of high quality and prime value and will be sold without the slightest regard to cost. thing you might find in a first-class jewelry stock is going at a clearance sale. It will last but a few days more. Auctioneer T. E. Dawson, into whose hands the entire stock was turned over, has been suddenly recalled to Washington through illness in his family, and his place is taken by Auctioneer Matlock, well-known in city. Mr. Matlock will conduct the last Ladies' Day, which will occur (this Tuesday, when every lady visitor will be presented with a souvenir. Don't forget the hours, 11 a.m., 2 p.m. and 7 p.m., 320 South Spring street.

A CLOUDBURST.

Three Lives Lost Near Plum Creek, Pa.

The Stormcloud Covered an Area of Six Miles-Damage Estimated at \$100,000. Another Downpour Occurs Near Wichita.

BRADDOCK (Pa.,) June 18 .- A cloudburst broke over the Turtle Creek alley, six miles from this city, this afternoon, destroying growing crops and hurling houses from their foundations. The loss of three lives is reported. The stormcloud covered an area of six miles by two or three miles wide. Turtle Creek and Thompson's Creek were raised ten feet above high-water mark in fifteen min-

tes.
The strongest force of the cloud broke upon the mining town above Plum Creek and Sandy Creek. Eight houses there were picked up by the current and bore with them John Hodovsky, a miner. Mike Boski, another miner, is reported to have been drowned while sleeping in one of the lower rooms of his home. A daughter of John Wanzel, 16 years old, is also said to have been lost in the flood. The total damage is estimated at \$100,000.

NEW YORK, June 18.—A project to invite England's grand old man to visit America has been on foot for some time The idea is to have the invitation signed by a large number of representative men of the country. Judge Addison Brown is among the prime movers. Gladstone has frequently expressed his great wish to call on his friends' on this side of the call on his friends on this side of the water, but the opportunity never seemed to present itself. It is doubted if he could at his advanced age, withstand a 3000-mile ocean voyage and the fatigue of public receptions after he reached his journey's end. But the invitation will be sent any way, and at least Gladstone will have a pleasing testimonial of the estimation in which he is held in the United States.

Sugar Trust Investigating Committee deeided, by a vote of 23 to 2, to request the Vice-President to certify the refusal to answer of A. P. Havemeyer and J. E. Searles, president and treasurer of the American Refining Company, to the District Attoreny.
Senators Camden, Cameron, Gorman and

Washburn were among those who appeared before the Senate Committee investigating the Sugar Trust today.

Senator Camden related the circumstances under which he introduced Havemeyer to Chairman Jones. Mr. Gorman was asked the usual question about specu-lating in sugar stocks and ownership of such stock, but he said he had neither bought any of the stock nor speculated in any way nor aided otherwise in doing so by giving out items concerning ap

Senator Pettigrew wired back that he never purchased stock for speculative purposes either before or since going to the Senate and asks to be excused from the trip to Washington.

FIFTY-THIRD CONGRESS.

WASHINGTON, June 18 .- SENATE .--Senator Hill moved today to place coal on the free list, and spoke of the redemption of the Democratic Hedges.

Before the tariff bill came up the Senate cassed a joint resolution directing the Secretary of War to appoint a commission of engineers to examine and report Superior and Duluth.
The pulp paper and books schedule of

the tariff was then considered. First, Senator Frye offered a protest against the 10 per cent tax on mechanically ground wood puip and chemical wood pulp, bleached or unbleached. The production of wood pulp, ing out a product valued at \$35,000,000 annually, and paying annually wages of \$23,000,000. Under the operation of the present duty, the cost of paper had greatly decreased. Wood pulp had decreased in price from 4½ cents per pound to 1½ cents. He appealed to the other side to make the duty specific instead of ad valorem, and proposed an amendment to substitute \$2.50 per ton on wood pulp; mechanically ground, chemial wood pulp, unbleached, \$5 per ton; bleached, \$6.50. The amendment was rejected, 20 to 23.

The rate on shipping paper and roofing

felt was fixed at 10 per cent. Printing paper, unsized, or sized, suitable for ooks and newspapers, 15 per cent. Copy, the House rate. Parchment paper, cardboard, photograph and autograph albums, wholly or partly manufactured, 30 per cent. Lithographic prints, 17 per cent. Lithographic labels, 45 per cent.; House Paper-hangings, 20 per cent. Blankb 20 per cent. Books, engravings, photographs, etchings, 25 per cent. Playing cards, 10 cents per pack and 50 per cent. ad valorem. Manufacturers of paper not specially provided for, 20 per cent. This completed the pulp and paper paragraphs and the Senate immediately proceeded

with the schedule "N" or sundries The following rates were fixed without debate: Hair and feather dusters, 30 per cent.: brooms, 20: button forms, 10: agate buttons, 25; pearl and shell buttons, 1 per cent per line and 15 per cent; ivory but-

tons, glass, bone and horn, 35 per cent; shoe buttons, 25.

When coal was reached opposition was developed. The House bill placed coal on the free list, the Finance Committee amendment placed a duty of 40 cents per ton on bituminous coal and slack, 15 on slack and culm, and 15 per cent. ad valorem on coke. As soon as the clerk had read these paragraphs Senators Hill and Peffer jumped to their feet. The New York Senator was recognized and he sent to the clerk's desk an amendment to relegate bituminous coal and shale to the

free list. Senator Hill supported his amendment with a speech. It was useless for him to enter into a lengthy argument. He simply wanted to call the attention of his Democratic colleagues to the fact that the country expected a Democratic Congress, in a tariff measure, to place coal

on the free list.

During the course of his remarks, Senator Chandler interrupted Senator Hill, expressing the opinion that coal would be on the free list before the bill became a law, basing his opinion on the "serene confidence" felt by the Nova Scotia syndicate, with which Mr. Whitney was con-

Senator Hill declared he was opposed to certain features of the bill, the socialist and Populistic income tax in particular, but no one, he declared, had a right to say he was opposed to the bill and was seeking to compass its defeat. "God knows what the bill will be like when it passes the Senate and comes out of conference," said he. "God knows how years more extertious and concessions will many more extortions and cone

the committee. I reserve the right to vote for it or not when I see what it is as a final."

Senator Squire, on behalf of the Wash-

ington coal interests, thought it was un-fair to admit Canadian coal at 40 per cent., when Canada charges 60 per cent.

on coal imports.

Senator Perkins explained that he would refrain from voting on this paragraph, because he had a personal interest in coal mines on the Pacific Coast. A vote was taken on Senator Hill's amendment at 3:40 o'clock, and it was lost, 7 to 15.

Messrs. Kyle, Allen, Peffer (Populists, Hill and Irby (Democrats) and Hans brough and Washburn (Republicans) voted in favor of the motion. The Finance Committee amendment, placing a duty of 40 cents on bituminous coal and shale and 15 cents on coal or culm that will pass through a half-inch screen, was

The deficiency bil was reported by Breckinridge of Kentucky. Mr. Sayers of Texas will have control of the bill. It carries an appropriation of \$4,890,593.

The Commercial Travelers' Bill, to permit the issue by railroads of joint interchangeable 5000-mile tickets was passed. Senate bill granting the right-of-way the Eastern Nebraska and Gulf Railroad through the Omaha and Winnebago Indian reservations in the State of Nebraska was passed.

The Anti-option Bill was then launched upon its Congressional voyage. Mr. Hatch opened the debate with a speech in favor of the bill. When Mr. Hatch's time expired Mr. Warner of New York delivered a vigorous speech against the meas-

Those who had not engaged quarters in advance scattered about looking for rooms and hunting up the delegates already in the city to get pointers, a fruitless task as all were at sea, aside from San Francisco people who have a good organization and apparently present a selid front. The delegates and citizens began pour ing into Turenvein Hall on K street at 7 o'clock, and by the time Gen. Barnes arrived and marched down the central aisle at 7:45 o'clock the place was a jam. Barnes's vappearance was the signal for an ovation, and when he reached the stand he was given a round of cheers that rattled the glass in the skylight. He rerattled the glass in the skylight. He re-marked upon opening that many a wouldbe orator has been told to "hire a hall," and he had taken the advice himself Continuing, he said:

"I have hired a hall; it is my hall, for I have paid for it. For more than a quarter of a century I have attended in some capacity or other the gubernatorial assemblages of the Republican party of this State. There come to me from the graves of our sleeping soldiers a thousand nystic voices of love for the great party God, the only party of America that has a policy; the party of statesmanship, courage magnificent and glorious tradition, we have seen it go down in defeat and we see it now more hopeful and courageous than ever with everybody aching for a chance to vote. This is not confined to those who have been followers of the flag of the Republican party, but there are thou-sands and tens of thousands of Democrats waiting to set the heel of condemnation on the serpent of Democracy and scotch

At the conclusion of the general's speech,
Maj. Furrey of Los Angeles jumped up
on a chair and proposed three cheers for
the orator, whose telling words were applauded to the echo throughout their delivery. A great throng pressed up to the
rostrum to congratulate him, and the incident closed. The cat-hauling begun at

now going on. Estee's friends claim
everything. Up to this hour I believe he

make a wonderful change in the situation.

ANOTHER POINT OF VIEW.

The Candidates for the Lesser Offices are

Legion.

Associated Press Leased-wire Service.

SACRAMENTO, June 18.—The day be fore the State Republican Convention ends with all the candidates in precisely the same relative positions as when it began It has been devoted almost wholly to akirmishing for the advancement of picket lines, and to the strengthening of positions preparatory to the real battle which begins tomorrow. The various important delegations have established headquarters at different places about the city and the

pending candidates are to be found at the principal hotels.

Morris M. Estee, however, carries his headquarters in his hat, and was a conspicuous figure around the lobby of the Golden Eagle Hotel all day, hobnobbing with delegates as they arrived and receiving congratulations, which are already ing congratulations, which are alreshowered upon him as the probable publican candidate for Governor.

Gen. Chipman holds forth at the Capitol

Gen. Chipman holds forth at the Capitol Hotel, and is surrounded by many friends, particularly from the extreme northern part of the State.

Col. Preston is at the Golden Eagle, while State Treasurer McDonald, who hopes also to succeed Gov. Markham, receives his friends wherever they find him. W. S. Barnes, who was a candidate, for Governor is continuous. W. S. Barnes, who was a date for Governor, is on the , as is his dignified father, W. H. L. Barnes. They both intend to make their influence felt in the even delegates. It is anticipated, how-ever, that Gen. Barnes will have no W. H. H. number of candidates for the lesser offices is legion, and they are all They are to be seen wherever dele-most congregate. The two most gates most congregate. The two most conspicuous figures are, perhaps, Judge Williams of Ventura, who is over six feet tail, as far around and correspondingly heavy, and Judge McKinley of Los Anheavy, and Judge McKinley of Los Angeles, who is nearly as tall as Williams. Both are thought to have a strong following. There are many other candidates who are just as active, but who perhaps, do not as strongly attract the

doors and hearts to all visitors, though the much-exploited free beer is not yet in evidence.

The situation at sunset is described in brief as follows: Morris M. Estee is far in the lead as the candidate for Governor, and unless something altogether unlooked for by either friend or foe occurs between now and Wednesday, will secure the nomination. There is opposition to Estee, and it is considerable, but it is sadly handicapped by a diversity of opinion as to the candidate upon whom all should unite. Its only common motive is hostility to Estee. Beyond, its differences appear not to be reconcliable. The McDonald faction will not give way to Chipman, and the Chipman following will not surrender to McDonald. It is claimed by the Estee men that either would rather vote for Estee than the other, though, of course, this statement cannot be verified, and may not be true.

Col. Burns claims tonight that the day's developments have absolutely removed any lingering possibility that Estee might be beaten, and he laughs at the representations made to him that the Napa statesman will be defeated at the polls, if not before the convention. It is clear that Col. Burns so far has the whip-hand. He has professed himself as absolutely indifferent to the action of the convention as to any candidate except Governor, and hes thereby, to a great extent, avoided the appearance of attempting to dictate its action in any matter of candidates or of procedure. He says there is no "slate." He refuses, or says he refuses, to make combinations of any sort whatsoever.

It is undehiable that Col. Burns has intrenched himself in a very strong position, and he has maintained it with great adroitness and no little diplomacy. The Estee faction has the enormous advantage of skillful leaderahip. The oppo-

sition is leaderless, and therein is the dominant element of weakness.

It is a part of the "slate" that George A. Knight shall be chairman. It is urged in Mr. Knight's behalf that he is a good parlamentarian, is strong-voiced and quick-witted, and that the "boys" want him. If Burns has a candidate for chairman, and he says he has not, it is Knight. Hon, Jacob H. Neff of Placer county, who has once or twice been in the chair at State Republican conventions, is very prominently mentioned in that connection, but his friends say he is not a candidate. The candidacy of P. B. Cornwall appears to have gone into eclipse before that of Knight, whose sun is still rising in the political firmament. He came up from San Francisco tonight, and was at once halled by friends as the man who would be placed over the convention for the purpose of guiding its course, and incidentally repressing the otherwise irrepressible orator Barnes.

Outside the Governorship, the principal interest centers in the fight for Supreme Court judges. Three candidates are to be nominated, two for full terms, one for the unexpired term of Judge Paterson, resigned, now being filled by Gov. Markham's appointee, Judge Van Pleet. It is taken for granted that Judge de Haven will be selected as one candidate to succeed himself, and it is likewise tacitly understood that Judge Van Fleet has a sort of proprietary right to the place he now

ceed himself, and it is likewise tacitly understood that Judge Van Fleet has a sort of proprietary right to the place he now fills. The contest is therefore practically narrowed down to the remaining single vacancy. De Haven and Van Fleet are both from Northern California, and, if geography is to be considered a factor in the distribution of office, and it always is, the nomination will go to Southern California. The Los Angeles delegation has been instructed for Judge McKinley, who is on the ground actively supervising the canvass

The Los Angeles delegation has been instructed for Judge McKinley, who is on the ground actively supervising the canvass in his behalf. Judge Torrance of San Diego has an enthusiastic following which has nothing else to ask and which is moving heaven and earth to compass his nomination. Judge Williams of Ventura has also considerable strength. Judge Henshaw of Alameda has his entire delegation behind him, but the matter of locality interferes with what otherwise might be a winning fight in his behalf. There is some talk that he will enter the lists against De Haven, leaving the Southern California candidates to settle the contest for the other judgeship among themselves. It is still anybody's fight.

The Lieutenant-Governorship attracts but little attention. It is possible that the friends of H. Z. Osborne of Los Angeles will yet persuade him to become a candidate, otherwise S. G. Millard may be urged for the place. It is expected that the nomination will be conceded to Southern California if the Governor comes from the North. Seymour of San Bernardino may be decided upon.

The Los Angeles delegates had a meeting

the North, Seymour of San Bernarding may be decided upon. The Los Angeles delegates had a meeting The Los Angeles delegates had a fleeting this afternoon and passed a resolution in effect asking the convention to place the nomination of Supreme Justices first. The design of the resolution is plain. It is to prevent complications of the judgeship with other officers for which Los Angeles has a number of candidates. It seems to be feared that, if the Governor is nominated first and the Lieutenant-Governor next first and the Lieutenant-Governor next and if Los Angeles secures the latter place, McKinley's chances will be less-ened. But if the judge is named first Los Angeles can afterwards easily get nomination anyway without reference

the judgeship.

The nominations for Congress are likely The nominations for Congress are likely to be made tomorrow after temporary organization of the convention. They are attracting but slight attention, largely owing to the absence of contest in several of the important districts. A prominent politician furnishes the following as the probable nominations:

First District—Judge John Baraham—of

Sonoma.

Second District—Grove L. Johnson of Sacramento. Third District-S. G. Hilborn of Ala-

Fourth District-No one generally menoned.
Fifth District—E. F. Loud of San Mateo
Sixth District—McLachlan of Los An-

seventh District-W. W. Bowers of Sar Seventh District—W. W. Bowers of San Diego, who is already nominated.

There are active contests in the First and Sixth districts and the persons named are those who appear to be the leading candidates. In the others, the nominations will doubtless be according to the slate.

The convention will meet at 2 o'clock to The convention will meet at 2 o clock to-morrow, in the big Agricultural Pavilion near the State Capitol. It will be called to order by Col. Meyers of the State Cen-tral Committee. It is said that George A. Knight is to be temporary as well as per-manent chairman. Both Col. Meyers and Knight are reported to be primed with speeches of the most approved pyrotechnic pattern and the convention will doubtless speeches of the most approved pyrocenime pattern, and the convention will doubtless begin its proceedings under most enthusi-astic auspices. After the committees are appointed and other necessary preliminary business disposed of, adjournment may be taken until Wednesday, though a night

The Committee on Resolutions will im-mediately begin work on the platform. It will, of course, contain the usual declara-tions for tariff protection, and condemna-tion of the Cleveland administration, Contion of the Cleveland administration, Congress and the Wilson bill; favor the Nicaragua Canal, harbor and river improvement, etc., etc., over all of which there will be little controversy, except, perhaps, some difference of opinion as to the best form of expression. It is altogather likely

will be little controversy, except, perhaps, some difference of opinion as to the best form of expression. It is altogether likely, also, that the platform will contain a free-silver plank, plain and unambiguous. If there is any fight at all, it will be over this clause. But the contest is likely to occur in committee, and not in convention. It is the expectation that, after the nomination of Governor on Wednesday, if it can be reached on that day, adjournment will be taken until Thursday. The precise action of the convention in this respect, however, cannot be forefold. It seems safe to say that final adjournment cannot be reached before Thursday.

It is announced tonight that Frank Short of Fresno will be the candidate of the Estee opposition for chairman of the convention. In an interview with an Associated Press representative tonight, Col. Burns said Knight would undoubtedly be selected to preside—practically announcing the San Francisco lawyer as the candidate of the Burns element.

"The nomination of Mr. Estee for Gover-

Burns element.

"The nomination of Mr. Estee for Gover The nomination of Mr. Estee for Gover-nor cannot be defeated," continued Col. Burns. "It is as certain as anything in the future can be. Even, if Mr. Knight were to be beaten for chairman I should say that Estee will still be nominated. But Knight will not be beaten. The friends of Mr. Estee will organize the convention."

"Have you any other candidates besides Mr. Estee?"

"Have you any other candidates besides Mr. Estee?"

"No sir, none. Many persons have approached me with propositions to trade votes in behalf of some lesser candidate, but I have uniformly declined. Mr. Estee goes before the convention absolutely untrammeled by promises or pledges of any kind."

The common estimate of the Estee vote is 600 or more. It takes 415 to nominate. Despite Col. Burns's vigorous denial that he had made combinations with anything or anybody, talk of "the slate" is generally heard. The opposition says Burns is completing the slate as fast as he can and is bending every energy and making every sacrifice to steer hesitating delegations into the Napa statesman's camp. But Col. Burns they say, slips a cog every now and then and erasures, emendations and interlineations in the "slate" are frequent. The name most frequently used in connection with Burns's alleged "slate" is that of Torrance of San Diego. He is declared by some to be high in Col. Burns's favor, in consideration of promises given and taken, while by others, with equal vigor and with an equal appearance of truth, he is declared to be forninst the San Francisco politician and all his works, so far as trades' go.

Gen. Chipman and his friends warmly deny that he is a "railroad" candidate, He has no sort of connection with the railroad they say, and, besides, the railroad is not a factor in the fight.

Gen. W. H. L. Barnes delivered his promised philippic at Turner Hall tonight.

Nomination Factories." The hall was densely crowded long before the time set for the address and hundreds were turned away. The cloquent lawyer was at his best and made a brilliant speech. Its tone, perhaps, was a little milder than many expected, though it furnished, food for much conversation around the hotel lobbies and street corners tonight. The speaker made a direct attack on Estee's political record, though asserting the warmest feeling for the candidate personally. He made very slight reference to Col. Burns, associating him with Buckley and Kelly and Crimmins and other "bosses."

Gen. Barnes began with an eulogy of the Republican party, and was frequently cheered as he made an effective point. His remarks, at first quite general, finally brought him to the topic of the night and he told how Mr. Estee was the Republican candidate for Governor in 1832 and was beaten, it was said, by railroad influence. The same influences, he said, exist now even to a greater extent. "Stoneman," said the speaker, "went through that campaign without ever opening his mouth, and Estee came out of it withva fit of bronchitis that he has not got over yet. Still Stoneman was elected. The old soldiers were down on Estee for he bolted the Republican ticket in 1872; declared that Grant was a failpre and served as an elector on the Democratic ticket. "Mr. Estee," continued the speaker, "is His topic was "Convention Methods and

"Mr. Estee," continued the speake "Mr. Estee," continued the speaker, "is a good citizen, a kind father, an affectionate husband, an excellent lawyer and a statesman out and out. If the party owes him anything, then let the next Republican Fresident reward him, but don't ask it of his State, for the Republicans of California will not do it. If he goes before the people as a candidate we would have to explain the eccentricities of his past life. I should say of Estee, in the language of Franklin: 'What a man has to explain he should never have done.'

"The ladies of the Relief Corps and the G.A.R. do not want Estee. Estee voted against the fourteenth amendment to the Federal Constitution in the California Legislature. The colored men are against him. He was a member of the anti-boycott convention, the most nonsensical gathering ever held in the State. He is a horse who can run just fast enough to

a horse who can run just fast enough t

sical gathering ever heid in the State. He is a horse who can run just fast enough to get beat."

The speaker denied that he was sore begause of his son's unsuccessful candidacy for the gubernatorial nomination, but said he was glad the young man was out of it. The speaker vigorously denounced machine politics, referring once to Burns, and expressed the hope that the delegates would free themselves from the thralldom of the bosses. He referred contemptuously to the statement that Knight would "roast" him if he "roasted" Estee, and declared Knight had not a place in the convention large enough to scratch a match to start the fire.

Gen. Barnes was cheered warmly before he started, while he spoke, and after he was through. It has been freely stated that Chairman-to-be Knight will "burn up" Barnes for his attack, and will overhaul the general's political career, which, it is safu, is interesting, and presents a great many points of similarity to Estee's. But it can be barely probable that Knight will have anything to say in the convention about the speech or speaker, unless the latter appears in the convention and furnishes a second installment of his views.

EARLIER IN THE DAY. SACRAMENTO, June 18.—Half the dele-gates to the State Republican Convention have arrived and the prospects are that the remainder will be here before the day ends. That part of San Francisco delegation which did not come yesterday was on the morning train with the Napa, Sonoma and Solano delegations. It is not believed there will be much trouble about platform, though a fight may posthe platform, though a 1811 may pos-sibly occur over sliver. A strong at-tempt will be made to have the convention declare for free sliver in express terms. So far as appearances go Estee has a walkover for Governor. Opposition to his nomination exists and in some cases it is bitter and uncompromising. His enemies say he has been beaten before and will be beaten again, but so far opposition appears unable to concentrate on either a appears unable to concentrate on either a candidate or a policy. It is now Ester against the field and talk of his nominaion by 600 or more votes on the first ballot is common.

Los Angeles will probably urge S. G.

Millard for Lieutenant-Governor in case of Estee's nomination.

At noon Chipman badges of red, white and blue appeared. Earnest work is now being done on behalf of Chipman and his friends say they are confident of success. They claim Estee cannot get the nomination on first ballot and, failing in that, cannot succeed at all. The San Jose delegation arrived at 3 oclock.

Gen. Barnes arrived this morning. He says he will speak tonight and denounce

ays he will speak tonight and denounce as the will speak tonight and denounce casee, and that he will probably nominate reston for Governor in the convention. It is expected an immense crowd will isten to Barnes's speech tonight, but casee's friends claim no harm will be

one their man.

The convention meets tomorrow at 2 clock. Very little is likely to be done beyond temporary organization and ap-pointment of committees, and then ad-journment will be taken until next day. Probably after permanent organization and adoption of a platform a vote for Governor will be taken, and if a no tion is made an adjournment to Thursda will be taken, when the work will b finished.

Col. Conger of Ohio Wanders from the Mc-Kinley Camp.

Associated Press Leased-wire Service. AKRON (O.,) June 18.—Col. A. L. Con-ger ex-member of the Republican National Committee from Ohio, has created a political sensation by a vigorous attack upon the McKinley tariff, sharply criticising Gov. McKinley's administration of State affairs, and pronouncing McKinley unfit for the Presidency. Conger says that, while the Republican party is for protection, the campaign of 1892 was lost upon the issue built upon the McKinley bill, and adds that McKinley could not carry a

single State in the Union upon the Mc-Kinley law in 1896.

Conger, who has been prominent in Ohio politics for years, says that he has contrib-uted more of his time and means to McKinley's success during the past twenty years than any other man in his city and county. He attacks the State administration, and says that McKinley has cast aside the friends and counsellor's of years' standing and is now controlled by selfish politicians. Conger favors Thomas B. Reed of Maine as the Republican standard-bearer in the next campaign.

This seemed to awaken the Californian, for with a smile he let go right and left, the latter landing with good effect on Fitz's body. Twice did Fitz miss left-hand swings, but toward the finish he got-Choynski in a corner, and an upper cut grazed Joe's jaw. A clinch followed, and the gong ended the round. An event which in point of interest was difficult to place between the dramatic and the cycling circles of Paris, was the "Course des Artistes," or cycle race of "Course des Artistes," or cycle race of actresses which took place in the Bois de Boulogne. The theater and cycling world were alike agitated to a great degree over the contest, and the talk of the town is "how the girls rode." Mile. Blanche Dupre of the Opera is now a heroine. She ranher bicycle over ten miles of the Ballan Court and Longchamps in 25:13, defeating her fifteen fair opponents by a very safe margin.

her fifteen fair opponents by a very safe margin.

There were sixteen starters, dressed in tight-fitting Jersey's or blouse-waists and snug knickerbockers. "Allez" was the word and each jealous attendant gave a push to the cycle on which his hope was seated, and away went the bunch in a cloud of dust. Some of the best wheelmen in France devoted their efforts towards bringing their respective favorites through by means of systematic facing. Each of the girls were surrounded by a corps of followers on cycles, with advance courters shouting at people to keep the track clear and free. There were one or two cases of deflated tires and one tumble-over, but otherwise there were no accidents.

At the expiration of less than half an

hour there appeared on the horizon a cloud which, soon developed into a cavalcade of wheelmen, riding seventeen or eighteen miles an hour. In the center of the flying group was the winner of the race, with hair disheveled, her clothing well-covered with dust and her mouth extended for the extremity of the final effort. The excitement was terrible, people shouted and pushed and fell over one another, paying no attention to the police. The pacemakers ran into the crowd and fell in heaps.

The winner, fortunately, missed the collision and was triumphantly lifted from her machine. The second to finish was Mile. Solangeat, her time being within one minute of that of the winner. The Galety Theater came next on the scene with Mile. Alice Berty riding to the finish in a final spurt like that of a Sanger. The prizes were numerous enough to accommodate all who finished, and ranged from a \$1000 bicycle to a packet of cigarettes.

Victor Gabriel Arrested at New York or ssociated Press Leased-wire Service.

NEW YORK, June 18.—For several

weeks advertisements have appeared in Western newspapers, announcing that "Thompson & Co." had opened a future the Suburban and other big events which are to be held on the tracks. George Higby of Hannibal, Mo., saw the adve \$20 and one for \$50, to be placed on dif-ferent horses. He placed \$10 of the money at odds of 10 to 1 on Henry of Navarre for a place in the Brooklyn Handicap, and received a ticket by mail recording the bet. He won, and sent the ticket to a friend to cash. The friend was into a friend to cash. The friend was in-formed that the money would be paid when Thompson & Co.'s checks were good. The checks had been cashed, and Higby came here to get his money. He could not do so, so he had Victor Gabriel, who is said to comprise the firm of Thompson & Co., arrested.

is said to comprise the firm of Thompson & Co., arrested.

Gabriel declared he was an agent for the company, although it was ascertained that he received all their mail. A boy had charge of the office, and delivered the mail to Gabriel in the street, the latter making appointments with him each day. Policeman Peterman caught Gabriel at one of the saloons. Justice Ryan dismissed the case against Gabriel, on the ground that at the time of the transaction, when the money passed between the parties, there was no apparent intention to defraud. What subsequently transpired, the Justice said, had no bearing on the case. The complainant alleged fraud, and there was no evidence to sustain it.

Gabriel was held in \$500 bonds, however, on another complaint. He is charged with violating sec. 469 of the laws of 1893, which prohibits pool selling. The defendant was locked up in default of bail.

NOTABLE TURF EVENTS. The Suburban to Be Run Next Thursday

NEW YORK, June 18.—Two classic turi events will be decided this week, the Su-burban at Sheepshead Bay, on Thursday, and the American Derby at Chicago on

The Suburban promises to be a great race. As in the Brooklyn Handicap, there will be no horses of overwhelming class to will be no horses of overwhelming class to make the affair one-sided. If Ramapo, Sir Walter, Lamplighter, Henry of Navarre, Clifford and Domino all start, the Suburban ought to prove the race of the year. Aside from these horses, there is Sport, with only 114 pounds up, who is certain to be heard from if he runs at all kindly, and Comanche, with 112 pounds, who may have a chance. Any one of these horses can run a mile and quarter at Suburban weights in less than 2:07½, and that would have won six out of the ten handicaps which have been run.

M. F. Dwyer seems to have poor luck with Don Alonzo and Banquet. Don Alonzo's race on Saturday throws him out of it even if his well-known disposition to run wide at turns would not have made him an extremely probable winner. Sir Walter gave Banquet four pounds and then beat him at least five pounds when they last met. Everything then favored Banquet. In a big field with only one pound difference in the weights, it looks as if Sir Walter ought to have no trouble in beating Banquet on Thursday.

Ramapo will carry three pounds more and Henry of Navarre, six pounds less than in the Metropolitan Handicap. In addition the distance is a furlong longer. The distance and difference in weight ought to bring the two horses tolerably close together. Sir Walter is an extremely dangerous horse at 120 pounds. Clifford is an unknown quantity. He may be a great racebore, but the Bastern pubmake the affair one-sided. If Ramapo, Si

lic will not believe it until he has beaten first-class horse.

Morris Park's long spring meeting will close on Tuesday with the great Eclipse Stake for two-year-olds, guaranteed to be worth \$20,000, at six furlongs, and the Belmont for three-year-olds, at a mile and an archibit.

THE MAXIMUM FREIGHT. THE MAXIMUM FREIGHT.

OMAHA, June 18.—The extended litigation in the Federal Court, with reference to the maximum freight rate law, closed today, and Judge Brewer indicated that a decision would be rendered within two weeks. The attorneys had to hastily concentrate their strongest points, as the court limited the speeches to this day, and Webster began his concluding remarks by taking up the question of the earnings of the respective roads, based on valuations per mile of the cost of the railways. Ho said that on a basis of valuation of \$20.000 per mile, the net earnings of the Burlington and Missouri River were 37.9 and Union Pacific 26.7 per cent. He showed where the railway companies had made large earnings on the main lines, but had squandered large sums in practical work and the maintenance of branches which absorbed their earnings in a desire to shut out some rival company.

He was followed by Atty.-Gen. Hastings on the legality of the acts of the Legislature. It was claimed that this act did not interfere in any manner or form with the interstate commerce laws, and that the Federal Court had no jurisdiction to entertain this action, either over the parties or the subject matter.

Justice Brewer asked Hastings if the State was not overlooking a question likely to arise in this and all other similar cases, to-witt: If it was not a fact that the State had permitted the railways to increase their bonded indebtedness in hopes of paying off their actual indebtedness?

Hastings contended the arguments. As his OMAHA, June 18 .- The extended litiga-

Hastings contended it was best. Judge Woolworth closed the arguments. As his time was so limited he filed his remarks with the court. It is an elaborate petition, explaining in detail why the Federal Court should interfere.

THE BOYCOTT OFF.

CHICAGO, June 18.—Chairman Caldwell of the Western Passenger Association to day issued a notice to all the lines of the association, that, because of the action of the Atchison and Alton roads, in refusing to join the proposed boycott against the Lake Erie and Western, the boycott is off, and no attempt will be made to carry it out. Chairman Caldwell leaves tonight for St. Louis, where the differences between the Missouri Pacific and Alton regarding cut rates between St. Louis and Denver, will be given a hearing tomorrow.

San Francisco, Red Bluff and Fresno; deficient at Sacramento and normal at Los Angeles and San Diego.

These meteorological features of the week have greatly benefited late grain by assisting its filling out with good plump kernels; but it has retarded the ripening of fruit, preventing thereby the markets from being glutted and lowering the prices below a profitable point to the producer; in fact, cherries in San Benito county have been so plentiful they were allowed to spoil on the trees, as they would not pay for the picking.

Haying is continuing and harvesting of grain has begun, the yield of the latter being far beyond the expectations of the most sanguine agriculturist, as made several weeks ago. The crop, of, course; is below the average, taking the State in its entirety, as is also the hay crop.

Will furnish \$10,000 in provisions and meet you in Cincinnati at any time." Mayor Montgomery arranged to meet the Chicago agent here. With Montgomery came William Shrap of the Forest Hill mines, Capt. Enoch Couch of Charleston and several Kanawha Valley miners. Before leaving for home, Montgomery telegraphed ahead to the miners, stating that he would lay the Chicago proposition before them last night. The plan is for the Hocking Valley miners to stay out and the operators threaten prosecution to the full extent of the law for conspiracy. Before leaving Montgomery said: "There is no limit to the amount of money the Chicago people are willing to spend. They tendered me a certified check for \$10,000. He said there would be plenty more money for the miners and he would have given me \$100,000 for myself if I had agreed to engineer the thing through."

The operators of the Chesapeake and Okio and New River coalfields are affected. The names of the speculators are unknown here.

Erie in this county accepted the Columbus compromise, and the situation along the line is critical. Serious trouble may develop before a settlement is reached. The Long Run miners accepted the compromise and went to work today. The company tried to start the Laurel and Dillonval mines, but the miners refused to allow them, and threatened violence.

The trouble grew out of the starting up of the Long Run mines, and the congregating there of hundreds of miners from Dillonvale and Laurel. No violence was offered today, but the miners are organizing at both of the latter places, and are expected to march to Long Run in the morning to prevent the miners working.

TAHLEQUAH, (I. T.,) June 18 .- A desperate battle took place yesterday on the road between Tahlequah and Wagner between Deputy Sheriff Gourd and the Cook gang of outlaws. Sequoiah Houston, one of the Sheriff's posse, was killed and one of the outlaws, Bob Martin, was captured. Several others of the Sheriff's posse were wounded, some of them, it is Cook and all but one of his gang escaped.

Since the killing of Bill Dalton, the Cook gang is now considered the most desperate of Territory outlaws. They were in-tent upon robbing a stageload of people on their way from the Big Cherokee payment at Tahlequah when Deputy Gourd and his posse ran them down. A courier just in from the scene of the battle brings the news that the gang is surrounded and another bloody encounter is inevitable. Reinforcements are flocking to the Sheriff.

The operation was an incision in the stomach, through which the action of gastric juices might be observed. The cavity thus made was about the size of a hazel nut. Tubes were inserted, and through these the nourishment taken by the patient was forced, the digestive process being marked by the aid of an electric light. Incidental to the operation, certain chemical substances were administered to the patient through the tube to ascertain positively the action of the drugs in combination with each other.

Twice before had Osbadston obtained subjects for these medical men. The first patient was Joaeph Burton. He recovered after a year's suffering, and is, now a farmer in Queensland. The second subject was inoculated with several frightful diseases, and died a terrible death. Among the persons who answered Osbudstone's advertisements last August was a powerfullooking fellow, who had been a sailor. His name was Ferdinand Peritich. The first week in September Peritich left for Guayaquil, and in the third week in October Chief Surgeon Ajacio ventured to perform the operation.

It is understood that the foreign committees are in harmony with the New York committee, and that all interests are taken care of in the plan, which has already been foreshadowed in this report. The street is anxiously awaiting the publication of the plan, in view of the fact that there are some other reorganizations pending, for which the Atchison scheme might serve as an example to be followed in some particulars. There was an unsettled tone to the speculation on the Stock Exchange today, as the operators were waiting for something to turn up. Nearly half the business was done in the industrials, the only active shares in the railway liet being St. Paul and Burlington. The engagement of \$2,000,000 in gold for shipments to Europe by tomorrow's steamer had no effect on the market, the gold being sent merely by reason of the scarcity of bankers' and sterling bills, and it does not change the views of the leading bankers, who believe July will see the end of the gold export movement. Foremost Baking Powder in all the World,

1893

World's Fair Medal and Diploma

AWARDED TO

Dr. Price's Cream Baking Powder

The highest award was given on every claim, comprising superiority in leavening power, keeping properties, purity and excellence. The verdict has been given by the best jury ever assembled for such a purpose, backed by the recommendation of the Chief Chemist of the United States Department of Agriculture, Washington, D. C., who made an elaborate examination and test of all the baking powder. This is pre-eminently the highest authority on such matters in America.

This verdict conclusively settles the question and proves that Dr. Price's Cream Baking Powder is superior in every way to any other brand.

NOTE-The Chief Chemist rejected the Alum Powders, stating to the World's Fair jury that he considered them unwholesome.

"The Autocrat of the Breakfast Table."

DR. PRICE'S CREAM BAKING POWDER is the standard for purity and perfection the world over, and is beyond comparison. Its purity and goodness are household words. Always full weight. Never varies. Never disappoints.

Dr. Price's is peculiarly adapted for export, as neither long sea voyages nor climatic changes affect it. Will keep fresh and sweet for years.

It is a fact that certain envious manufacturers of Baking Powder, who lacked the temerity to even place their goods in competition with Dr. Price's Cream Baking Powder at the World's Fair, have, since it closed, advertised that they actually received an award. To an enlightened, appreciative public, comment on such an unfair and reprehensible act is quite unnecessary.

How Cream of Tartar Is Made.

Cream of Tartar—which enters so largely into the manufacture of Dr. Price's Cream Baking Powder—is obtained from the tart wines of France, Germany, Austria, etc. The Crude Tartar, called Argols, is deposited on the sides of the wine casks during the fermentation of the wine. After the wine is drawn off this crystal deposit is removed, dried and exported to America, where the elaborate process of refining goes on, producing the snow-white crystals of Cream of Tartar. Specimens of this product, in all its conditions, from the crude Argols in its original wine cask to the purified and refined article embodied in Dr. Price's Cream Baking Powder, were shown at the Price Baking Powder Company's late exhibit in the Agricultural Building, World's Columbian Exposition.

NOTE—The Cream of Tartar Refinery controlled by the Price Baking Powder Company is the most complete and extensive in the world.

THE LICENSE QUESTION.

Councilman Strohm called up a petition addressed to the Council, which petition was read. It was as follows:

"Your petitioners respectfully represent that they are citizens and residents of the city of Los Angeles, that their families and homes, their property, as well as their interests are located and centered here and that under the laws of this State they have invested considerable capital and engaged in the business of saloon-keeping, and have always observed and in the future intend to observe all requirements of the law, however strict on onerous they may be as compared with other occupations.

"Each of us pays a license to the city of \$50 per month, and \$15 to the county. Many of us also pay an additional restaurant license of \$5 per month, and the cash revenue derived by the city alone from the saloon-keepers for licenses amounts to between \$8500 and \$9000 per month, and to more than \$100,000 per year. In view of all this they believe that they are entitled to some consideration and that they should not be deprived of the safe-guards which the Constitution guarantees to every person, even to the lowest criminal. They should not be condemned or their property confiscated without a hearing or an opportunity to defend them selves. That their licenses which permit

their property confiscated without a hearing or an opportunity to defend themselves. That their licenses which permit them to carry on their business, and which are of the greatest value to them, as their invested capital virtually becomes valueless without them, should not be refused or revoked without good reason, nor on the mere statement of informers or without notice and an oportunity to disprove the charges made.

"Some facts have occurred within the last month in this city which have awakened our most serious apprehensions. Licenses have been revoked without hearing and the prayers and requests of the parties concerned for an opportunity to prove their innocence has until this day not been acceded to. What has happened to them heretofore may happen to us hereafter, however innocent we may be. us hereafter, however innocent we may be It is said that this revocation of license

hearing is authorized by the provisions of ordinance No. 2011, approved on January 29, 1894, but we believe that it never was nor ever could have been your intention to thus treat your constituents and permit their property to be taken without hearing. We believe that your intentions, as expressed in said ordinance are not rightly understood and that in granting to the Police Commission the news to see the property of the police Commission the news to see the property of the police Commission the news to see the property of the police Commission the news to the police Commission that the property of the property of the police Commission that the property of the police Commission that the property of the property of the police Commission that the property of the police Commission that the property of the property

expressed in said ordinance are not rightly understood and that in granting to the Police Commission the power to revoke the permit or license at any time it was intended that said power to revoke should not be exercised except for good cause and after investigation and a hearing granted to the parties concerned.

"We therefore ask you, in view of the danger that is daily threatening us to intercede for us in our behalf by either modifying said ordinance or passing a resolution stating your meaning and interpretation of its provisions, and request said commission to hear both sides before it will pronounce judgment, especially when such judgment bears with it such far-reaching consequences. If then, after investigation, any one be found guilty of affly violation of law or ordinance warranting the revocation of his license, then let him suffer the consequences. But, until there has been such an investigation and an opportunity to show that the charges are not well-founded, do not confiscate his property first, and then try him afterwards or not at all. We ask only for justice, and as every day's deay is fraught with danger and involves a depreciation of our property, we respectfully pray for immediate action."

Councilman Strohm also presented for consideration a draft of an ordinance, the body of which was as follows:

"That sec. 5 of ordinance No. 2011 be amended by inserting after the words 'to revoke the same at any time,' the following words: 'After investigation of the charges made, during which the party whose permit or license is to be revoked shall have an opportunity to be heard with his witnesses, so that said section shall read as follows:

"Sec. 5. That no license to keep, maintain or carry on any drinking place or any restaurant or eating place where splrituous, vinous, mait or mixed liquors are sold, served or given away shall be issued to any person until a permit in writing from the Board of Police Commissioners of the city of Los Angeles, authorizing such issue, shall have been filed with the City Clerk, and the Board of Police Commissioners shall have power to issue such permit and to revoke the same at any time after investigation of the charges made during which the party whose permit or license is to be revoked shall have an opportunity to be heard with his witnesses, and after the filing of such revocation with the City Clerk said clerk shall issue no further license to the party whose permit is revoked until a new permit be granted to said party."

Councilman Strohm spoke on the question, saying that he believed that in justice to the business men who had signed the petition, the ordinance giving to the Police Commission the control of both the granting and revocation of licenses should be amended so that the man who has put money into the business will not be in danger of losing his business without even a hearing.

President Teed asked Councilman Strohm if the business men whom he had referred

danger of losing his business without even a hearing.

President Teed asked Councilman Strohm if the business men whom he had referred to in speaking of the signers of the petition were in other than the liquor business or whether they were all saloon-keepers. To this Councilman Strohm replied that they were all saloon-keepers. President Teed called Councilman Nickell to the chair and said that he supposed this petition had come in because of the revocation of the saloon license of the places conducted by Mr. Kerkow (Yienna Buffet,) and Mr. Schurtz (The Palace.) These two men, he said, it was known, had been running their places in direct violation of the law and in defiance of the authorities. "They have," he said, "made their boast that they would keep running and would not be stopped. We'll see about that." He further said that the keepers of respectable liquor places would find in him a protector as long as they behave themselves.

Councilman Strohm said that after the saloon men had invested money in the business they ought to have a fair show and not have their licenses taken away without even a hearing.

President Teed said their money is no better than that of any one else if they do not obey the law

Councilman Munson moved to refer to the Police Commission.
Councilman Smith moved that the ordinance be "accepted" as read.
Councilman Campbell said that after a man has paid a license of \$50 per month it should not be revoked without his being given a fair hearing.

The motion of Councilman Munson to refer to the Police Commission was seconded by Councilman Rhodes, who said that he was satisfied that the Police Commission war composed of reasonable men. Such men, however, as Schurtz and Kerkow, who had openjy and notoriously violated the ordinance, do not deserve a hearing.

The petition, together with the ordinance, was finally referred to the Police Commission.

M. T. Collins was heard. He said he learned that a dozen or so people, would not effect what was desired. The lewd women who abided on that street should be removed, and then it would be of some use to adopt a different name. TELEPHONE RATES. The matter of the fixing of telephon

The matter of the fixing of telephone rates coming up, Louis Glass, special agent for the Sunset Telephone Company, was bestd. He explained the position of the company, as heretofore published, and argued that the Council had not had sufficient grounds for fixing the rates, as it had proposed to do, in that the Council had not thoroughly investigated the affairs of the company before starting to reduce the rates.

the company before starting to reduce the rates.

The use of the telephone, Mr. Glass said, was confined almost entirely to business men, and to be of use in business the telephone service should be better than the company could afford to give at the reduced rates proposed.

He presented a petition, which he said contained the signatures of users of the telephone in this city who do fully one-half the telephone business of the city. The petition asked that the Council do not change the rates, as at present charged.

change the rates, as at present charged.

When asked if the company had made any private arrangements with the signers of the petition as to rates, Mr. Glass stated positively that the company had not

lone so.

The Sunset Company, he said, was paying to the American Bell Company, roy-alties on nearly one hundred devices, all of which must be used in the business in

order to give good service.

Chairman Munson, of the special committee to which the matter of telephone rates was referred, stated that, in making the report which the committee presented last week recommending that the rates be fixed at \$4 per month for business places, and \$2.50 for residences, the committee and \$2.50 for residences, the committee

fixed at \$4 per month for business places, and \$2.50 for residences, the committee was influenced in its investigations by the fact that the members of the committee were led to believe that the Sunset Company had, directly or indirectly, some interest in the amount claimed to have been paid to the American Bell Company as royalty beyond the payment of \$21,000 over to the American Bell Company.

Mr. Glass was asked the leading question and in reply stated positively and unequivocally that the payment by the Sunset Company of more than \$21,000 as royalty for the Los Angeles plant alone was a bona fide transfer. Neither the president of the Sunset Company nor any of its officers or stockholders received any benefit therefrom.

The matter was referred back to the special committee, consisting of Messrs. Munson, Campbell and Innes, with the understanding that the committee would report to the Council one week from next Monday.

It is alleged in the complaint that Allen, while employed as a switchman in the San Bernardino yard, was on January 15, 1893, called upon in the line of his duty to climb upon a freight car in motion and set the brakes. That unknown to him the brake had been broken, owing to contact with some projecting timbers on another car while in transit, and when he attempted to set it the brake gave way, throwing him off and in front of the car, which ran over and killed him.

Those miners of the Gogebic range, in Northern Michigan, who have decided go on a strike for higher wages, have for many months, until recently, sut upon charity. The mines closed down during the latter part of last summer, be cause of the pressure of hard times and the announcement of the dominant party to place iron ore on the free list. The charand not in vain, to save these men and issued a proclamation, calling upon the citizens to do all in their power to aid in the work of relief. Committees were organized in the principal cities, and sup-plies were promptly sent forward by the carload. Express companies took charge of the contributions, and the railroad com panies of the State generously forwarded all supplies free of cost.

Thus, by a splendid system of co-opera-tion, the sufferings of several thousands of families were relieved, and they were saved from actual starvation through long and vigorous winter of that northern latitude. Finally, Gen. R. A. Alger and other prominent citizens interested them the matter and succeeded in inducing the mining companies to open the in the industrial situation to warrant suc step. The half-starved men, who had been supported for months by charity were glad enough to go to work at somewhat lower wage-rate than had pre vailed before the election of Cleveland The mines have been running, though a no profit, since they started up on 'tariff-reform' basis. Now, however, the men are getting tired of "tariff-reform" wages, and have decided to strike for return to the McKinley scale. "I propose to take up Mr. Estee in as kindly a spirit as a critic can take him up, and discuss his candidacy and his character just as I would discuss the candidacy and character of George Washington.

"I propose to deal fairly with Mr. Estee, for personally I like him. We have no personal quarrel. He never has done anything to me, and I am under no obligation to him personally, socially, financially or politically.

"I propose to begin with a picture of the finding of gold by Marshall at Coloma, and to show that on the first nugget there brought to light was the label: "For Governor, M. M. Estee."

"I propose to show and discuss the methods and influences which brought about the nomination of Mr. Estee in 1882, and the methods and influences which compassed his overwhelming defeat.

"I propose to take up the character of Jackcon Temple, who will undoubtedly be the unanimous choice of the Democratic Convention for Governor of California, and to show what a petty figure M. M. Estee will cut when brought into comparison with such a man.

"Will you go on the floor of the convention?"

"I don't know yet. I have been offered several proxies. But if I should go into the convention I don't suppose they would recognize me. I think that this dominating influence would see to it that I was treated just as Frank Pixley used to be treated in Republican conventions when he was considered a firebrand. He never could secure recognition from the chair. He would violate all the rules laid down for convention procedure, but there was always enough power in that procedure to keep him from being effective.

"They used to dispose of old Jim Reynolds in the constitutional convention in the same way. Joe Hoge, who was in the chair, hated Reynolds and never would recognize him. So when Reynolds would get up and in his husky, catarrhal voice shout 'Mr. Chairman!' Hoge would look over inte the other part of the hall and recognize 'Mr. Griggs of Sisklyou.' Then old Jim would settle back with 'As usual, by the eternal!"

"However, I'll have my meeting," Gen. Barnes went on. "I see that George Knight is quoted as calling me a counterfeit. Well, I didn't hear him say it. The fact is, I was talking here and telling what I proposed to do. Knight came over to me and, in a joking way, said he had heard that I was going to burn up somebody. I told him that I was.

I didn't know I had one. I supposed that every-body knew all about my record. What absurdity to talk of burning me up on my private record.
"So they say I'm a counterfeit. Well, perhaps I am. Perhaps I'm an imitation,

"So they say I'm a counterfeit. Well, perhaps I am. Perhaps I'm an imitation, but I'll just give them an imitation of a man who is out of office saying just whatever he pleases about those who are trying to get into office."

KNIGHT WAS MAD. George Knight was also somewhat "worked up" over the prospects of his candidate, and he relieved himself in the

candidate, and he relieved himself in the following pointed vein:

"Barnes was over there at the hotel yesterday, talking about sheep and goats and fogs—just as if all the delegates could be herded and driven at somebody's will. I went over to ask him about it, and the Examiner this morning had the conversation about as it occurred. I told him that, if he went to burning people up, I'd burn him up. I told him he is a counterfeit, and he is.

"What right has he to be talking about sheep and goats and dogs? I don't know by what authority he calls himself a free man. I haven't generally heard him estimated that way in this community. Have you?

man. I haven't generally heard him estimated that way in this community. Have you?

"If he thinks that the nomination of Mr. Estee would be fatal to the party or would be injurious to party interests, he has a right to go into the convention and say so, it is his duty as a Republican to do so. He ought to rant and roar as much as he can. But all this talk of sheep and goats and dogs is rot.

"Now, I'm a free man; but is he? I never have had any of that business from down there at Fourth and Townsend streets." I injured myself thousands of dollars by a speech I. made for Estee in the Republican convention of 1882. It was in reply to Barnes. In his speech nominating Judge Blake, Barnes said his candidate was not licking the spittle of the masses. This was in reference to Estee, and the general went on in a similar voin. "I was not on the programme for a nominating speech, but Dan Burns, who was looking after Estee's interests, and was a delegate from Yolo, sent me a note: 'For heaven's sake get up and put Estee in nomination.' I looked around to where Burns sat, and he excitedly waved me to get up.

"So I placed Estee in nomination, and in

isn't going to do him any hurt to have Barnes roaring around the country about him."

"But they are even more perturbed," relates the Examiner, "about the attitude toward Mr. Estee of the party's three most influential organs, the Sacramento Bee, the Los Angeles Times and the San Francisco Chronicle.

"The attitude of the Chronicle yesterday morning caused additional alarm. Ever-since Burns and Spreckles captured the San Francisco primaries that paper has given evidence that the old breach between M. H. de Young and Spreckles and Burns had been healed. The rumor grew that an arrangement had been effected whereby the Chronicle was to support the Burns and Spreckles interests and retire Mr. de Young from the Senatorial fight this year, and that in return, two years from now, Burns and Spreckles would support him for the full term in the Senate. It has also been accepted that C. P. Huntington and the railroad would also give Mr. de Young their support for the Senatorship.

"Then, just as all the Republicans thought that everything was lovely, the paper gave evidence that the political entente cordiale between Mr. de Young and Mr. Huntington had been disturbed. Next the Chronicle began belaboring Senator Perkins and reading him out of the Republican party. The Republicans opened their eyes and concluded that they were wrong in supposing that Mr. de Young would not contest with Senator Perkins for the short-term Senatorship before the next Legislature.

"Next came the surprise of yesterday morning. Whatever break may have been had with Huntington and Perkins it was supposed that the arrangements and amileable relations with Spreckels and

morning. Whatevor break may have been had with Huntington and Perkins it was supposed that the arrangements and amicable relations with Spreckels and Burns still held good. But yesterday appeared an eye-opener, indicating that the old wounds had opened and that the old war was still on. The article charged in effect that the railroad was using the Burns and Spreckels influence to nominate its candidates; that most of the selections had been made, and that one of the railroad orders to be obeyed was to have the nominations of the Surreme Court Justices precede the nomination for Governor. In an editorial the paper relterates this last assertion, and attacks the railroad, at the same time warning the Republicans against such a procedure. "George A. Knight is supposed to be closer to Mr. de Young than anybody, so the more or less anxious inquirers went to him and repeated the question: What does the Chronicle mean?" "I'm hanged if I know, 'Knight replied. Trye just been having a talk with De Young about it, and I don't know any more than I did before. He seems to think there isn't anything in the article or the paper's attitude which requires an explanation. I can't understand him. It seems to me an explanation is very necessary.

FOR THE SUPREME BENCH.

FOR THE SUPREME BENCH. "The great battle at the Republican con-vention will be fought on the nominees for

"The great battle at the Republican convention will be fought on the nominees for Supreme Court Justices. At present there are nine open candidates for the three places, and the friends of each man claim to have within a few votes of enough to secure the nomination.

"The names on the majority of tongues are De Haven and Tourner for long terms and Van Fleet for the short term. De Haven appears to be certain of success. It is conceded on all sides that he will be nominated. Every probable ticket that is named, every combination that is attempted, every trade that is talked about, has De Haven as an element. It is known that Col. Burns would like to have De Haven on the ticket and will throw him all the support he commands. There are sufficient interior delegates to get in back of the San Francisco delegation to make his nomination a certainty.

"Next on' the list is Torrance of San Diego. Everybody denies the existence of a slate, and the responsibility of Torrance's strength cannot be traced to any particular leader, yet it is certain that he is talked of more than any other man next to De Haven, and if the call of the convention could have been made last night he would unquestionably have received very nearly enough votes to nominate him.

"The greatest element in his favor is the concession that Southern California must have a candidate on the ticket for the

"The greatest element in his favor is the concession that Southern California must have a candidate on the ticket for the Supreme Court. McKinley has come up from Los Angeles with the solid sixtynine votes of his delegation, but he does not appear to have created an impression serious enough to give Torrance any great worry.

worry.

"Torrance's other Southern opponent is williams of Ventura. He is supposed to have the support of the delegations from Ventura, Santa Barbara and a part of San Luis Obispo.

"Torrance is assured of the support of San Diego, Orange, Riverside and a number of northern counties, with the chances favorable for securing the Los Angeles representation, if McKiniey's case becomes hopeless.

bopeless.

"For the short term, Van Fleet appears to be slated. He possesses the powerful influence of the railroad, whose representatives are working hard for him. The picture of the state of the sta hotel contingent from morning until late in the night. He was asking two favors for the Southern Pacific—the nomination of Van Fleet and the defeat of Henshaw, but not so much did he desire the success of the Sacramentan as the defeat of the

Alamedan.

"Henshaw wants a long-term nomination, and is working hard for it. He is the most dangerous man Torrance has to fear. Members of the Oakland delegation, a dozen strong, and including William B. Hamilton, George W. Reed, Victor H. Metcalf, Emil Nusbaumer, Senator, Earl, Charles S. Wheeler, Thomas and W. E. Dargie, Frank Leach and W. C. Ralston, talked Henshaw to everybody. When the lights went out they hobnobbed together and figured up 250 promised votes, as the result of the day's work.

TOO MANY CANDIDATES.

and figured up 250 promised votes, as the result of the day's work.

"The unusual number of candidates before the convention this time has split matters up so fine that every man 's prophesying for himself. Of course, pretty nearly every man whose name has been mentioned can figure out a success in his own way.

"The only clear field seems to be that of the candidate for Controller. So far no serious rival for E. P. Colgán has appeared. It is conceded that Sonoma is entitled to something, and Colgan has been a favorite up there for a long time. It was expected that San Francisco would put forth a candidate for this office on account of the city's great interest in the State Board of Equalization. The Controller is an ex-officio member of that board, so if San Francisco got the office she would have two members to fight for her interests. Even though Colgan seems to have things his own way, he is not taking any chances, but is working for the place, and Douglass of Sacramento, the deputy Controller, has been very busy among the delegates in his chief's behalf.

"The second place on the ticket, Lieutenant-Governor, Reddick. If Estee is nominated for Governor the southern part of the State is logically entitled to the second place, but it happens that Les Angeles is more interested in a question of a candidate for Railroad Commissioner from the Third District than in the Lieutenant-Governorship. This complicates Seymour's plans. George Sperry of Stockton is also spoken of for the position. If he runs there would be an end to the ambitions of Mayor Clark of Stockton, who is a rival of Arnold, Los Angeles' candidate for Governor the office of the position. If he runs there would be an end to the ambitions of Mayor Clark of Stockton, who is a rival of Arnold, Los Angeles' candidate for Railroad Commissioner for the Third District than in the Lieutenant-Governorship. This complicates Seymour's plans. George Sperry of Stockton is also spoken of for the position. If he runs there would be an end to the ambitions of Mayo nomination. I looked around to where Burns sat, and he excitedly waved me to get up.

"So I placed Estee in nomination, and in replying to Barnes made a speech that so offended the railroad that in all the fourteen years I have practiced law in San Francisco I haven't had a smell of their business, and every effort to give me some of it has met with the strongest opposition. They can't say I'm a dog, or a sheep, or a goat to be driven by anybody.

"I'm for Estee because I like him. I haven't been as enthusiastic for him this time because I don't like this way of making a fight—putting him up a week in advance for all the others to pull at. But if they haven't been able to pull him to pleces it shows that the old fellow is a mighty strong candidate, doesn't it? It shows that he is strong before the people.

"If he isn't the strongest candidate of them all, why don't the other candidate of them all, why don't the other candidate of them all, why don't the other candidate. Well, there are limit, much of a candidate he surely must have fifty or a hundred votes bahind him or else he isn't much of a candidate. Well, there are like him a candidate. Well, there are like him a candidate. Well, there are like him as a hundred votes bahind him or else he like him as a candidate. Well, there are like him as a candidate. Well, there are like him as a candidate. Well, there are like him as a hundred votes bahind him or else he like him as a candidate. Well, there are like him as a candidate of the like him as a candidate. Well, there are like him as a candidate of the like him as a hundred votes bahind him or else he like him as a candidate. Well, there are like

her of ladies and gentlement and art critics yesterday. While the name is a trifle suggestive there is nothing about the picutre to oftend the most sensitive, and those who have seen it are full of admira-tion over the triumph of artistic skill dis-played in the lines on the canyas.

A large and attentive audie

A large and attentive audience attended the meeting of the Los Angeles Singletax Club at Unity Church last evening to listen to a discussion of the doctrine of Henry George. Miss Kelso, the librarian, opened with a paper devoted to some criticisms which a study of the subject had suggested to her. Her attention was originally attracted to the theory by Hamilin Garland's charming presentation of it. Herbert Spencer's works had also was originally attracted to the theory by Hamlin Garland's charming presentation of it. Herbert Spencer's works had also assisted her in understanding certain phases. But she could not reconcile her views of the rights of the individual with some of the teachings of the single tax. She thought it would be an injustice to compel a man, who had selected a home in a city and intended it to be the abiding place of his family, to move with the growth of the city. Under the single tax system this would be the case, because the owner would be unable to pay the increased tax, the theory of the single taxers being to tax all land according to its value, regardless and independent of improvements. It might be necessary that he use the property for residence purposes because of its convenience, and yet his income would be insufficient to pay the increased tax.

Clarence A. Miller replied to Miss Kelso at considerable length. He claimed that it was upon moral principle that single-taxers rested their case, and that it was the moral right of all men to natural opportunities. Under proper conditions men should need no moral education. It is under the existing system of wrong and injustice that it is necessary to consider the moral education of men. The present system of taxation encouraged perjury, deception, dishonenty. Perjurers lied about their possessions to escape taxation.

The abolition of private ownership of land would relieve the working classes from the competitive pressure experienced in the present limited field, for the land would then be bidding for their labor.

VANDYKED ALL ABOUT.

From Our Regular New York Fashion Corre

Summer wraps are freely garnished with summer waps are ricely garmined with laces and the richest-looking laces are black, but many are seen shaded more or less with yellow. Laces of the bluish-white tints are not in favor. As they are only suited to gray-haired women and to small children, their lack of acceptance should not be regretted. Some little capes are literally masses of fuffy laces, and many are as liberally trimmed as that shown, which is made of beige satin, and ornamented by applications of bead embroidery in vandyke points. A shorter cape has long stoll ends, and is similarly embroidered. The Medici coilar is finished with a narrow pinked silk ruching.

Mord regard seems to have been paid to eccentricity than to beauty in some of the blends of color which appear in the more fanciful sorts of summer dress goods. Hany a time there is discernible a skillful touch which just saves the result from becoming discordant; again it takes considered.

eration to decide whether the effect is har monious, and in some cases the combinations are not at all happy. Not less fanciful are the designs of figuring on challies, organdies, dimity, but rarely are these as pronounced as to detract from their beauty. Crepon is essentially a summer stuff, and a lining for it is generally desirable. As it is also susceptible of the most graceful folds, its beautiful, flowing effects should not be interfered with, so a lining should be chosen which has the least possible stiffness. Besides silk, one of the best lining stuffs is batiste and it like the former, should be chosen of a shade somewhat deeper than the crepor itself. The many beautiful patterned crepons which are offered need little trimming, as far as the skirt is concerned, for most of them are so delicately covered with figured designs as to make much or namentation unnecessary.

FLORETTE.

Hints for Amateur Florists.

A young girl, whose class colors are blue and white, made a tour of the florists in search of blue carnations with most discouraging results. They could be found but were too expensive. A way was discovered out of the difficulty by a friend, who suggested putting the stems of white carnations in bluing water. The experiment proved a success, and the class will no doubt appear with blue and white carnations without the asistance of a high-priced florist. Purple violets may be changed to a beautiful blue by putting a little ammonta in the water and letting them remain over night.

The Price of a Mustache.

A woman of Lindenburg, in a frolicsome humor, took the liberty to cut off a portion of a huge mustache sported by a well-known personage of that lik. The injured party was greatly enraged, and set up a claim of damages. The case was tried at the local police court, and the fair offender was muleted in a fine of 10 marks, to be paid into the poor-box, and 50 marks compensation to the plaintiff. Judging from the size of the piece cut off the entire mustache would come to about 4800 marks (£240.)

The Very Old Story of a Young Man and Another Woman-Once a Waitress But Now of the Demi Monde.

calls herself Mrs. Lillian Cummings, but who is better known as Lillian Russell, on account of some faint resemblance which she is said to bear to the famous actress, made a desperate attempt to commit suicide by dosing herself with laudanum in a Main-street lodging-house at 5 o'clock yesterday morning.

thence to Grace Carlisle's bagnio. While there she attracted the attention of a young man about town, who induced her to leave the place for apartments up town. Soon after she had been established in her new quarters, however, a former flame of the young man returned from a trip to San Francisco, and as soon as she learned of the Russell woman's attachment for the youth, whom she considered as her private property, war was declared. Miss Russell, much to her disgust, was arrested for disturbing her rival's peace late one night, but the sensational developments promised when the case came up for trial, never materialized, as the matter was quietly disposed of next morning without the formality of a trial.

The young man in the case apparently proved fickle to his second inamorata Sunday night, for when he refused to respond to a very urgent summons from the fair Lillian, she went out, purchased laudanum, returned to her room and swallowed the poison. Fortunately, however, she did not take a sufficiently large dose to complete the work, and one of the women in an adjoining room, becoming alarmed at her actions, informed Policeman Stewart, who summoned Police Surgeon Bryant. By the use of antidotes and a powerful emetic the woman was soon placed out of danger, and it is safe to predict that she will not again attempt suicide by the same means.

The following resolution was unanimously adopted:

"Resolved, that whereas, a county superintendent for Los Angeles county is shortly to be elected, and whereas, Spurgeon Riley, a graduate of this school, has proved himself an efficient teacher, and for the past four years an excellent officer as deputy superintendent of schools of this county; and, whereas, we believe that his election to this office will best conserve the interest of the public schools; be it therefore,

"Resolved, that we, the alumni of the Los Angeles State Normal School, here assembled, do heartly indorse Mr. Riley as a suitable person for the office of County Superintendent, and extend to him our sincere wishes for his success."

In the evening a social reunion was held, at which the members talked over old times, danced, and, altogether, passed a very pleasant evening.

DR. ECKFORD KILLED.

Struck by a Train at Walnut Street Crossing.

He Was Driving a Hard-mout Was Unable to Hold the Animal When

Dr. F. M. Eckford, a native of Alabama. 75 years of age, was accidentally killed at the Walnut-street crossing of the South-ern California Railway Company, while driving into town from his Glendale ranch

yesterday morning.

The old gentleman, who was hale and hearty, for one of his years, left his ranch about 8 o'clock in the morning, in a single buggy. The mare attached to the vehicle, though ordinarily gentle and obedient, was signed of the corresponding to t afraid of the cars, and being somewhat hard-mouthed, was occasionally hard to hold. Just as Dr. Eckford approached the crossing at Walnut street, the San Ber-nardino local train, due at La Grande Depot at 9:50 o'clock, came around the curve pot at 9:50 o'clock, came around the curve at a speed of about eighteen or twenty miles an hour. The old gentleman un-doubtedly saw and heard it, for he pulled miles an hour. The old gentleman undoubtedly saw and heard it, for he pulled his horse almost to a standstill some ten feet or more from the track, apparently intending to wait until the train had passed. When the train had passed. When the train has between fifty and sixty feet from the crossing, however, the mare jerked the lines forward, and dashed across the rails directly in front of the locomotive. The engineer instantly applied the airbrakes and reversed his engine, but before any material diminution of the speed of the train had been made, the pilot of the engine struck the buggy, smashing it to splinters, and hurled the old man some thirty feet or more from the track. The train was stopped before it had run its own length, and when the trainmen, upon running back, found that the old man was dead, the body was placed in the baggage car and brought into town. Coroner Cates was notified, and under his directions the body was removed to the undertaking establishment of R. L. Garrett & Co., where an inquest was held at 2 o'clock in the afternoon.

From the testimony of Engineer G. B. Hayes, Fireman B. F. Lewis, Conductor F. W. Daniel, Baggageman G. A. Conde and Brakeman M. M. Penrod, F. E. Howland, the express messenger, and I. Adams, the news agent, all of whom were on the train, it was shown that the accident was unavoidable, and due entirely to the fact that the old gentleman appeared to be unable to hold his horse when the train approached.

A MOUNTAIN MYSTERY.

A Whistling Spring in San Bernardino County—Subterranean Suction.

HESPERIA, June 18.—(Correspondence.) A curious and interesting phase has developed in a well which is being sunk near Hesperia. When at a depth of ninety feet a strong downward, or sucking current of air was discovered, which continued until a depth of seventy feet more was reached, when the current of air changed upward, creating a whistling sound like steam escaping. A strong smell of carbonic acid gas indicates a close mell of carbonic acid gas indicates

proximity to coal or gas beds.

This well is being sunk in a deep ravine or "draw" called the "Little Anteravine or "draw" called the "Little Antelope." Stratas of coarse gravel and cement gravel alternating. Placing the fingers over the pipe, which is sunk to this depth, one can almost produce music. This well is of much interest, and may prove of vast importance, proving the theories, true or false, often advanced of a subterranean channel through the mountains toward the sea. Certain it is, the Mojave River, whose headquarters are on the north side of the mountain divide, and which runs north some forty or fitty miles, has the largest capacity and flow of water of any river in Southern California. This phenomenal well is about eight miles from the base of the mountains, directly north of San Bernardino and three miles from the Mojave River. Much speculation is rife concerning it. Will the scientific me rife concerning it.

STOCKYARD PRODUCTS.

Eastern and Western Packers Disputing

Associated Press Leased-wire Service.

SIOUX CITY (Iowa,) June 18.—The famous case of Eastern vs. Western pack-ers is about to be reopened. Papers will be filed with the Interstate Commerce Commission within a few weeks, on

be filed with the Interstate Commerce Commission within a few weeks, on application of parties who control the stockyards here. They have interested with them other Western packers, and will make a strong fight.

When the packing business began to develop in the West, it was encouraged by the rates given by the roads. They charged about twice as much for hauling live hogs from the Missouri River or Chicago as for the same haul of packing-house produce, and it was found profitable to pack in the West. Squires & Co. of Beston took the matter before the Interstate Commissioners and secured an order from the roads to make the same rates on live stock as on the slaughtered stock. The result has been an injury to Western packing interests.

There is now only one member of the commission who was on it when the ruling was made, and it is believed the agitation of the matter will result in a victory for the West.

A HUSBAND'S PERFIDY.

Millionaire Oakes Compels His Wife to Re-main in a Madhouse.

millionsire Oakes Compels His Wife to Remain in a Madhouse.

**asagolated Press Leadsed-wire Service.*

NEW YORK, June 18.—Mrs. Luella Oakes, second wife of Francis J. Oakes, the millionare head of the Oakes Chemical Manufacturing Company, has been confined by her husband in a private insane asylum for three years, as an habitual drunkard. She is now endeavoring, through the courts, to regain her liberty, and declares that she has been the victim of a conspiracy. Supreme Court Justice Gaynor of Brooklyn has ordered that Mrs. Oakes, who is a young woman of many personal charms shall be brought into his court next Tuesday morning.

On March 18. 1883, Judge Garretson of Queen's county, committed Mrs. Oakes to the asylum of Dr. D. A. Harrison, known as Breezehurst Terrace, at Whitestone, L. I. The commitment was made at the request of the woman's husband. A few weeks ago Dr. Harrison notified Oakes that his wife was in a condition to be released. She had counsel to regain her liberty. When the counsel, preparing to take steps to secure her liberation, and after the doctor in charge of her had said she was in a condition to be released. Oakes, on June 6 last, had her taken

away to a Connecticut asylum. It is he return from this Connecticut asylum the Justice Gaynor has ordered. Oakes he children by his first wife, and his state ment is that the insanity of his secon wife, who is about 30 years old, finds man ifestations in threats upon the lives of his children. The incarceration of Mr. Oakes at Breezehurst Terrace was the third which her husband has secured.

Mrs. Oakes, in a touching letter to Law yer Henry M. Heymann of Temple Courthis city, states that the three years' in prisonment in insane asylums has beedue entirely to the fact that her husban his desired to get rid of her. Not long ago dispatches from San Francisco announced the divorce of Mrs. Stetson, who had become a resident of that State some time previous. This divorce was secured on sensational grounds, and was subsequent to the unsuccessful effort in the same direction of Artist Stetson before the Rhode Island Supreme Court. After the society people of Rhode Island were astonished by the report of Mrs. Stetson's divorce, they were further startled by the story of the artist's long affection for "his ideal."

SANTA CATALINA ISLAND ILLUMINATED SANTA CATALINA ISLAND ILLUMINATED
Commencing Saturday evening, June 23, the
Wilmington Transportation Company's magnificent ateamship Hermosa will make regular trips to Catalina Island.
A most attractive programme has been arranged for the Hermosa's initial trip, including a grand illumination of the bay and ship
upon her arrival off Sugar Loaf.
Music by the Santa Catalina Orchestra of
soloists, dancing in the payllion, etc.
A more magnificent scene was never witnessed than the beautiful bay of Avalon when
illuminated with rockets, candles, red
and blue lights and other attractive freworks.
For railroad connections, see Southern Pacific Company and Terminal Railway's timetables in Los Angeles daily papers.

A communication from S. Cathcart contained a complaint that C. H. Rhoads, a neighbor, had, by means of a pile of stones and embankment, so protected his own property from storm water as to divert the next possible flood full into the subscriber's premises, in which case he averred that he would be drowned out. Mr. Cathcart said in his letter that, in case he suffered on account of Mr. Rhoads having so changed the water outlet, he would sue the city for damages. The communication was placed on file and the subject of complaint investigated.

Then the board adjourned.

The Star printed this bit of news: "The friends of Miss Grace Ellery Channing will be interested to hear of her marriage, on June 11, to Charles Walter Stetson, the artist of Providence, R. I. Mr. Stetson, it will be remembered by most of our readers, formerly lived in Pasadena, and was the husband of Mrs. Charlotte Perkins Stetson, who is still in Oakland. Her little girl has been in Boston with Miss Channing for some time." This was the match which caused so much gossip a few months ago, and was exploited at length by the San Francisco Examiner. Charlotte Perkins Stetson disdainfully refused the situation of wife to the aforesaid, and "struck."

The third annual catalogue of the Throop Piytechnic Inatitute was issued from the press today. It contains an historical sketch and full description of the Institute, with courses of study and a student list for the past year, from which it is seen that the todal enrollment was 40, of which 153 were boys and 248 were girls. Judging by the applications received, this number will be largely exceeded the coming year.

Flower thieves are again engaged in their petty villainy. At the residence of G. E. Meharry, on East Colorado street, some yandai broke a large branch from a magnoiis tree Sunday night, and also carried away some rose bushes bodily. Other residents of that neighborhood make similar complaints, and the first fellow caught trespassing will be properly dealt with.

SANTA BARBARA, June 18.—(Special Correspondence.) The Supreme Court is now occupied with a case which is a gena judgment secured in Los Angeles county, but docketed here. Mr. Ambrose had levied an attachment on the same property at the time he purchased it, and Saunders held a check for \$9000, subject to his, attachment. Rogers Bros., who had secured a Sheriff's deed for the property, sold it to W. S. McKay. Meherin served a noting on Saunders to pay over the balance of the money, \$9000, or thereabouts, and it then transpired that Grant Jackson, Esq., of this city, had garnisheed the check (upon which payment had already been stopped) for legal services, which he claimed to have rendered the steamship company. The same check was also subject to the attachment of Mr. Ambrose. Saunders found himself unable to deliver the check or draw the money, in spite of the fact that he had issued a certificate of purchase, duly acknowledged and recorded, to the effect that he had received \$10,000 in gold coin for the property. It is on secount of that certificate that the present suit is brought. Able attorneys are engaged on both sides, and the case will be watched with great interest by the legal fraternity.

(Times-Index:) Some time since Louis F.

Moulton and Stephen Oyhazabel were subjected to legal proceedings to collect the county license on 12,000 and 18,000 head of sheep, respectively. They were moving their herds from the coast over into Inyo county. They gave bonds and proceeded on their way. Today the case came up in Department One, and, on motion of the lefendants attorney, J. W. Stephenson, Judge Otis granted a non-suit, virtually deciding that the license tax could not be collected from non-resident sheep-owners, who were simply diving their herds through the county. This will settle all similar cases, whether pending in the Superior or Justice courts.

THE VALUE OF BAKING POWDER A World's Pair Jury Settles a Much Mooted

The relative value of baking powder has been long discussed. The question has at last been answered by a World's Fair jury of award. Dr. Price's Cream Bakins Powder is declared to be the best. Several different points of superiority were claimed for it, and they were all found to exist by the jury, which was made up of scientific men best fitted to make a thorough analysis of all the various kinds of baking powder submitted for the price. Dr. H. W. der submitted for the prize. Dr. H. W. Wiley, chief chemist of the United States Department of Agriculture, an expert, and the highest authority on the healthfulnes of food products in America, gave the jury the benefit of his analysis of all the different brands, and merit alone prompted

Freedom from Freckles

And from all such disfigurements and blemishes, follows the use of Carlsbad Sprudel Salt. It clears and freshens the skin wonderfully-takes away that dull and mottled look that comes from stomach derangements. Besides being a purgative and an eliminative, the Sprudel is a decided alterative or blood purifier. It is the prescribed remedy, even in chronic and stubborn cases of eczema and such disorders.

The blood, the liver, the stomach, the kidneys-all are put into a thoroughly healthy condition by the Sprudel Spring, and just as well here as if you were on the spot.

Remember that the only gennine im ported Sprudel Water or Salt has the seal of the city of Carlsbad and the Agents, New York," on every bottle.
